WATER CONDITIONS: water levels continue to be a little low

FISH: Channel and blue catfish ...anglers are good success with crawfish, leaches, and shrimp as bait. Fish up to 10 pounds are taken. Don't grab them when the spines are out. Blue cats are bottom feeders and grow quite large. They will eat many things, but the normal diet consists of crawdads, fish and other various detected items.

FISH: Smallmouth bass ... anglers are having success but it is spotty. Best baits being used are 10 inch plastics and crankbaits by boat.

NOTE: Reported from Riverside Hunting Bait and Tackle.
